

7 Blue supplies for the 2011-2012 school year

Every student is required to keep an assignment book. Our school will be selling agenda books, or students may buy their own. Also, student assignment book templates are available on the 7 Blue webpage. Students may print out assignment pages at home.

Students will need a three-ring binder with pocket dividers for English, science, social studies and math.

Students need a separate three-ring binder for reading materials only.

Students will need a 3 section spiral- bound notebook for math

Calculators are provided in school, but students should have access to calculators at home for homework.

Students should have plenty of writing utensils.

Pencils (not mechanical) are required in math.

Blue/black pens are often required for certain written assignments.

Book Sox are not appropriate for all books. One or two Book Sox will be enough. Other books must be covered with traditional paper bags or paper covers.

These items will be needed by September 12.
